VIA57™

DESIGN BY BJARKE INGELS IN
COLLABORATION WITH KIBISI, 2016

The VIA57™ lounge chair is designed for the VIA 57 West Building in New York city.

With its flexible modules and inventive design, VIA57™ fits into a modern lifestyle, allowing you to reconfigure it to suit your needs. Create a small sofa for an intimate conversation. Expand it to a stunning lounge area with a welcoming atmosphere. Or let VIA57™ stand out on its own as an inviting piece of sculpture that doubles as a piece of furniture.

VIA57™ will let you design how you choose to live with it.
